

Economic Indicators

These economic indicators are gathered from public sources and are as current as the release of the underlying data. The most recent month indicates the most recent data available and additional trailing 12 months data is included where applicable.

These charts are updated monthly.

Previous 5 years from most recent quarter

CPI - Consumer Price Index

% change from previous month-all items

Source: www.bls.gov/cpi/

The Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services.

PPI - Producer Price Index

% change from previous month - total final demand

Source: www.bls.gov/ppi/

The Producer Price Index (PPI) program measures the average change over time in the selling prices received by domestic producers for their output. The prices included in the PPI are from the first commercial transaction for many products and some services.

Consumer Confidence Index

Index 1985=100

Source: <https://conference-board.org/data/consumerconfidence.cfm>

The Consumer Confidence Survey® reflects prevailing business conditions and likely developments for the months ahead. This monthly report details consumer attitudes, buying intentions, vacation plans, and consumer expectations for inflation, stock prices, and interest rates.

Diffusion Index, SA

Advance Monthly Retail Trade Survey - The Advance Monthly Sales for Retail and Food Services provides early estimates of monthly sales for companies in the retail trade and food services sectors.

Source: <https://www.census.gov/construction/nrc/pdf/newresconst.pdf>

The U.S. Housing Starts report is a critical indicator of the health of the housing market and broader economy. Tracking the number of new residential construction projects each month, this data offers insights into the direction of the real estate market, construction industry, and economic growth.

Source: <https://www.census.gov/construction/c30/c30index.html>

A construction spending report is highly relevant as it acts as a key economic indicator, providing insights into the overall health of an economy by measuring the level of investment in new construction projects, which can signal future economic growth or slowdown depending on the trend of spending; it is closely watched by investors, analysts, and policymakers to gauge economic activity and inform investment decisions.

Series 1 = Sales Series 2 = Inventories Series 3 = Inventory/Sales Ratio

Source: <https://www.census.gov/mtis/index.html>

The purpose of this report is to provide broad and timely measures of combined changes in domestic retail trade, wholesale trade and manufacturers' activities. It provides the only source of monthly data on total business activities of retail trade, wholesale trade, and manufacturers.
